

HDS 3AA

TACTICAL CQB SIGHT

Display

The HDS 3AA is powered by a single AA battery and is ideal for tactical law enforcement and military applications as well as a variety of commercial and recreational uses. This sight allows for rapid, accurate target acquisition with both eyes open — ideal for close quarters combat. The HDS 3AA features a tools-free Picatinny mount, tactile windage and elevation adjustments and multiple aiming point brightness levels (including settings for night vision). When coupled with the HDS 3x or 5x flip away magnifier, the HDS 3AA can be used as a 3x weapon sight.
