

IR 200

IR 200

Give your night vision device a performance boost with an IR illuminator! These compact infrared "flashlights" provide illumination visible only through night vision devices. A typical 1st generation night vision device with an illuminator outperforms 2nd or 3rd generation night vision devices used without one at a fraction of the cost.

Night vision devices of 2nd or 3rd generation equipped with IR illuminator deliver a drastically improved observation distance and image resolution. IR beam can be either focused for longer viewing distance or widened over an observation area.

Specifications

Model	IR 200
Type	LED
Power, mWatt	200
Wavelength, nm	805nm
Beam Angle	5.7° - 10°

Mechanical

Power supply, V	3
Battery	2xAA
Battery life, hours of continuous work, hours	2
Dimensions, mm	132x45x52 mm
Weight, g	140

Environmental

Operating temperature range, C	-20° ... +40°
