The state-of-the-art LRM 2K combines excellent 7x optics with the world's most advanced laser rangefinder technology. Revised approaches in optical, mechanical and electronic engineering allow target acquisition at longer distances with better reliability under a wide range of harsh weather conditions. This model allows observation of distant objects with superb image quality along with accurate distance measurement up to 2,000 m [output display in yards also] and has Bluetooth™ connectivity and bright TOLED display for round-the-clock operations. The LRM 2K has a built-in inclinometer to measure the angle to the object and is waterproof according to IP67 standard. Aim and click— and you know distance and angle, all with the push of a single button. Compatible with Newcon's new NC Cronus™ app.
