Display

NV 66-G2 binoculars provide the ability to observe the terrain under the darkest conditions. This model uses the same approach to night vision taken from our popular battle-tested NVS 7 binoculars series and utilizes a Generation 2+ image intensifier tube. Waterproof, lightweight, and compact this is one of the most affordable systems on the market, making it an excellent choice for recreational or professional use. The NV 66-G2_8x is a high magnification handheld or tripod mounted night vision binocular with uncompromising optical characteristics in its class.
