

NVS 15-3AG

AUTO-GATED DUAL TUBE NIGHT VISION GOGGLE

Display

The NVS 15-3AG auto-gated series of night vision binoculars has been proven in deployments in conflict zones and by peacekeepers around the world. The NVS 15-3AG utilizes two advanced auto-gated, Gen 3 image intensifier tubes; has a manual gain control system; built-in IR illuminator; auto shutoff mechanism and is fully MIL-SPEC.

The NVS 15-3AG series provides users with full depth perception and is ideal for vehicle operation and any other dark environment task requiring acute situational awareness. The modular design of the NVS 15 allows for the detachment of the left or right eye monocular while the proprietary bridge mount provides for interpupillary and other fine adjustments.
