

NVS 7-3/5xAGBW

AUTO-GATED BLACK & WHITE
NIGHT VISION BINOCULAR

Display

The NVS 7-3-5xAGBW an advanced iteration of the battle-proven NVS 7 series, delivers unmatched optical performance for defense, maritime, and search-and-rescue (SAR) operations in zero-illumination environments. Engineered for mission-critical reconnaissance and command applications, this binocular system combines 5x magnification with a wide 8° field of view, ensuring rapid target acquisition and situational awareness.

Ideal for:

- Coastal and maritime surveillance
- Long-range SAR operations in low-light/no-light conditions
- SOF reconnaissance

Key Advantages:

- Compact & Lightweight Design: Proprietary catadioptric optics minimize size and weight, making the NVS 7-3-5xAGBW the most portable handheld binocular in its class—without compromising durability or performance.
- Adaptive Tactical Utility: Optimized for extended deployment in naval, ground, and airborne operations where maneuverability and stealth are paramount.
