

MB-3/MB-2 NIGHT VISION MONOCULAR

This unit is optimal for the outdoor usage. Being totally waterproof, it will float on the water if accidentally dropped. It can satisfy both professionals and amateur needs. The distinguishing design features are: large bright objective lens (56 millimetres), ergonomic and convenient grip, independent focus adjustment for objective and ocular separately, focus adjustment lever, which eases operation in the darkness.

FEATURES:

- ◆ Totally waterproof
- ◆ Floats on the water
- ◆ High magnification
- ◆ Build in I/R illuminator
- ◆ Auto shut-off for power conservation
- ◆ Automatic brightness control
