

NVS 10MG with side mount

NVS 10MG Shown on Assault Rifle

NVS 10MG DAY / NIGHT RIFLESCOPE

NVS 10MG is a unique integrated day/night weapon scope. User can switch between day and night modes, eliminating the need to carry separate night and day scopes. No re-zeroing is required when switching between day and night mode.

The scope fits various weapons, including machine guns, anti-tank guns, grenade launchers, etc. This scope features an adjustable lit ballistic reticle. The reticle can be changed (at the factory) to match the particular weapon/ammunition combination.

FEATURES:

- Fits a variety of weapons, including M16, AK-47, Carl Gustaf Grenade Launcher, RPG, various machine guns
- Can be supplied with weaver mount (MIL-STD-1913), side mount or a custom mount
- Accurate internal windage/elevation adjustment mechanism
- Lit tactical reticle with adjustable brightness
- Automatic brightness protection

ACCESSORIES:

- Carrying case
- Manual
- Warranty card
