

**NZT 22**

**NZT 22** from **Newcon Optik** is one of the most cost effective 1<sup>st</sup> gen., night vision goggles available on the market. NZT 22 provides the highest quality, clearest optics and best overall performance in its class. Thanks to its two image intensifier tubes users can appreciate a real stereo vision with a better depth perception. NZT 22 is useful when you need to see under the darkest condition while keeping both hands free and is an excellent choice for law enforcement, hunting and other outdoor usage.
