

NZT 22 from Newcon Optik is one of the most cost effective 1stgen., night vision goggles available on the market. NZT 22 provides the highest quality, clearest optics and best overall performance in its class.

Thanks to its two image intensifier tubes users can appreciate a real stereo vision with a better depth perception. NZT 22 is useful when you need to see under the darkest condition while keeping both hands free and is an excellent choice for law enforcement, hunting and other outdoor usage.

FEATURES:

- Hands free
- Flip/flop mechanism
- Built-in I/R illuminator
- Water-resistant
