

STARGATE M

This is the most affordable Night Vision device in the world, period! Patented lever activated power supply substitutes expensive electronics, and the reduced manufacturing cost is passed to the customers. Ideal for camping, hiking and all outdoor activities, when you do not want to depend on batteries. Do not be fooled by the low price - the fast lens coupled with a good image intensifier provide a sharp image which is as good or better than competing products at 2-3 times the cost.

The included powerful Infra Red Illuminator allows observation in complete darkness
