

NVS 7-3/5xAG

AUTO-GATED NIGHT VISION BINOCULAR

Display

Based on the popular NVS 7 night vision goggles series, the NVS 7 binocular series models are suitable for defence, marine and SAR operations that take place in the world's darkest tactical environments. Available in 4x, 5x and 8x magnification configurations, there is a binocular model for virtually any detection, recognition and identification requirement. The NVS 7-3/5xAG provides an excellent visibility range while remaining compact due to its catadioptric lens design.
