

NVS S MOUNT

RHINO STYLE HELMET MOUNT

NVS S Mount is a ruggedized helmet mount assembly (Rhino Style) providing the user with an easier, more comfortable mounting option when wearing the Night Vision Goggles or Night Vision Monoculars. This mount allows direct attachment of the goggle or monocular to the FAST Helmet or any other compatible Helmet with "VAS Shroud" installed.

Features

- Simple installation and flip away motion
- Easy to use
- Rugged design
- Able to withstand various forces
